

NEMO...the sea for everyone

"Let me tell you will not regret the time spent on board my vessel. You are going to travel through a wonderland. Astonishment and stupefaction will probably be your normal state of mind."

Jules Verne, "Twenty Thousand Leagues under the Seas".

The wonders of the depths of Ischia in snorkeling with subaqueous marine biologists, experts connoisseurs of the most beautiful points of the island coast.
Routes easily accessible to the whole family - Safety jackets for children.

SNORKELING EXCURSIONS

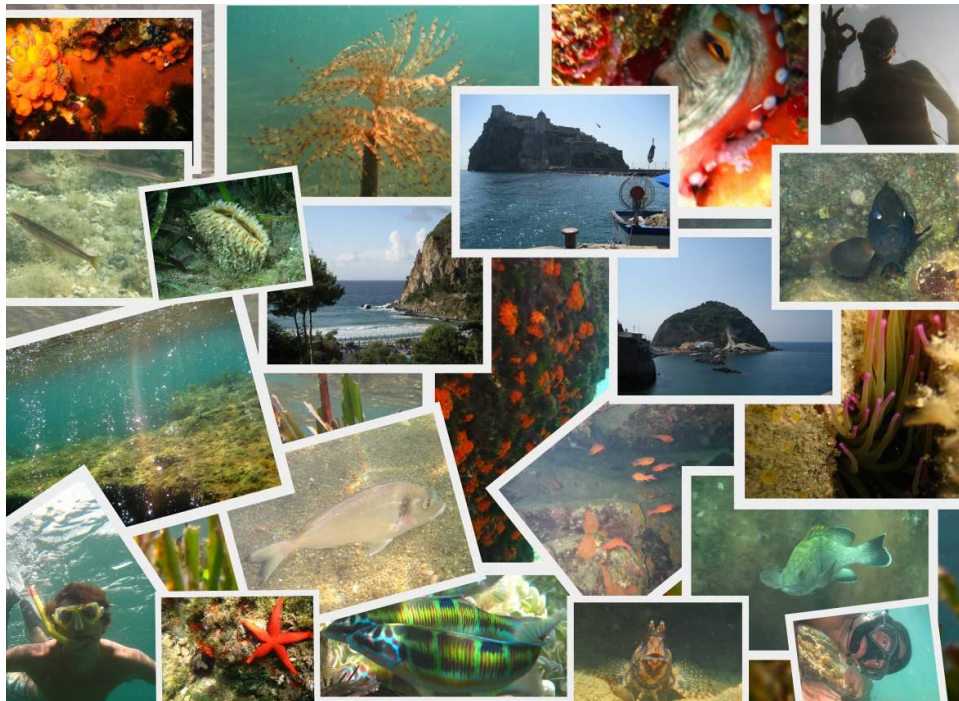

- **Ischia – Aragonese Castle:** excursion to the feet of the old Castrum Geronis, among *Posidonia Oceanica* beds and carbon dioxide exhalations that have made this site a natural science laboratory. **An unique excursion all over the world.**
- **S. Angelo – La Roja:** you can immerse by the little beach of the fishermen village of S. Angelo, among anemones and hermit crabs and you arrive to the rock outcropping of the Roja, on the edge of a submarine slope. **A dive where the sea is a blue table!**

The proposed excursions provide a starting from the ground. Optional excursion on demand, including on board.

Snorkeling course and Mention on Mediterranean marine Biology

Two-days course divided into: 3 theoretical lessons - including two about snorkeling techniques, planning, safety procedures and one of Mediterranean marine biology - and three practical lessons - including 2 carried out the same day (morning and afternoon) about techniques and the following day about Mediterranean marine biology. Issue of international certification (patent) of snorkeling PSS.

Excursion includes the supply of **complete equipment**.

Meeting at the chosen site – introduction to the Mediterranean and Ischia biology – excursion – discussions on the observed life forms. **Total time: about 2 h.**

It is on the Association Guide's discretion the decision to carry out the above mentioned activity and the assessment of the marine weather, environmental and security conditions.

Become a "**Nemo Ischia**" friend on **Facebook** and discover the wonders of the Green Island.
